

## FOR IMMEDIATE RELEASE

**CB Records is proud to finally present the release of the long awaited album *Century Mornings* from Norwegian prog rock act Confirmation Bias. *Century Mornings*, will be available worldwide on Friday, 29th of March 2024.**

**Title:** *Century Mornings*

**Band:** Confirmation Bias

**Genre:** Progressive Rock

*Century Mornings* is a collection of songs exploring different aspects and struggles of the human mind, and the bumpy roads we encounter on our way through life.

The music and lyrics generally describe present and past times, with struggles with physical and/or mental challenges as the common denominator through the album.

From the regrettably relevant opening track *Residence in You*, dealing with current issues of fake news and Internet trolling – to *Living With the Lie*, telling the sore story of a young man at the dawn of the 20th century realizing he was born an illegitimate child.

The closing epic title track *Century Mornings* is this young man's journey from poor conditions in a country with no prospects for employment - to the great land of opportunities to which many Scandinavians emigrated in the transition between the 19th to the 20th century. This is a song of hope for the future, a Century Morning to start all over.

In addition, we treat you to four more inventive and exciting tracks for your listening pleasure.

We proudly present *Century Mornings* to the world!
